BRIGGS' SUCCESSOR.

New York, Sept. 25.—The little chapel
of Union Theological seminary, usually
sacred to quiet devotion, rang with ap-
plause yesterday while Rev. Dr. Marvin
R. Vincent delivered to the students and
friends of the institution the annual ad-
dress opening the scholastic year. In the
same place seven months ago Dr. Charles
A. Briggs read his famous inaugural
address, which has since been a discus-
sion in the church. In every way as
vigorous in tone and as advanced in
thought as the other, Dr. Vincent's ad-
dress was almost equally remarkable and
may be followed by results as important.
President Hastings and other leaders of
the seminary sympathetically admitted that
what Dr. Vincent had said was exactly
the line of Dr. Briggs' effort, and if
one was heretical, the other was not.
Most of the students who crowded the
chapel were supporters of Briggs, but
five or six gentlemen were there who are
noted as his opponents. Among them
was a layman from Indiana, who at the
Detroit general assembly was the fore-
most anti-Briggs lobbyist. The friends of
Dr. Briggs said that these gentlemen
attended yesterday for the purpose of
"getting ammunition" from which it
appears likely that there is trouble ahead
for Dr. Vincent.

BURCHARD'S DEATH.

SARATOGA, N. Y., Sept. 25.—Rev. Dr.
Samuel H. Burchard, of New York City,
who had been unconscious since early this
morning, died at three o'clock this after-
noon. He was taken ill on last Sunday
evening. His illness developed into per-
itonitis, and last night he reached the crit-
ical stage.
Dr. Burchard was born at Steuben, N. Y.,
on Sept. 10, 1812. After leaving the col-
lege he began to lecture on temperance,
slavery and religious questions, and won a
wide reputation in Kentucky, where he
then resided. He was licensed to preach
in 1838. Dr. Burchard came prominently
before the public in 1864, at a reception to
Mr. Blaine, then the Republican candidate
for president, tendered at the Fifth Avenue
hotel, in New York, by several hundred
ministers of various denominations. Dr.
Burchard was there and had been chosen
to address Mr. Blaine in behalf of the
clergy.

As Dr. Burchard neared the close of an
address of affectionate regard and esteem
for Mr. Blaine he was prostrated by these
words: "And we admire and we welcome
you, Mr. Blaine, as a steadfast opponent
of Romanism and rebellion. Years
later Dr. Burchard, while speaking the
incident with an Associated Press repre-
sentative, who stood near him on the day
it occurred, said: "Well, I don't know
but that I may have been a humble in-
strument in the hands of Divine power to
effect exactly the contrary of what I had
in my heart to do when I spoke that day."

AN ALLIANCE ORGAN FLOPS.

LOUISVILLE, Ky., Sept. 25.—The Farm-
ers' Home Journal, for nearly a year the
official organ of the Farmers' Alliance in
this state, has given up its connection
with the organization. The reason as-
signed is that the Alliance wishes to go
into politics. There are two factions in the
Alliance in Kentucky upon this question
of joining the People's party, and at the
state meeting at Elizabethtown on Nov.
10 there will be a sharp contest between
the two for the election of officers. The
present officers are opposed to political
action by the Alliance.

stallions was ever hitched to a wagon.
CHICAGO, Sept. 25.—Immediately after
the last race at Garfield park today nine
jockeys were arrested, charged with vio-
lating a city ordinance prohibiting racing
and riding race horses within 400 feet of
a public boulevard. Al Hankins was also
arrested with a state warrant, charging him
with gambling. The warrants were sworn
out by Attorney Hamilton of Hyde Park.
All the arrested parties immediately se-
cured bail. It is not definitely known
who instigated these proceedings, but it is
supposed to be an outcome of the old
trouble with Corriga and the Hawthorne
track. More trouble of a similar nature
is expected tomorrow. Winners today
were Boylerhede, Lizzie Gwynn, Yo Tam-
bine, Adversity.
GRAVITY, L. J., Sept. 25.—Winners to-
day: Madison, St. Pancras, Alcide,

beat the state yearling record, made a mile
in 2:31.5.

NATIONAL FINANCES.

WASHINGTON, Sept. 25.—There is yet out-
standing \$9,124,000 of the 4½ per cent. loan,
which has not been continued or redeemed.
There remain only five days in which any
of these bonds will be received for con-
tinuance at 100 per cent, as the secretary has
given notice that the time will expire on
the 30th inst.
The government deposits in national
bank deposits have now been reduced to
\$13,000,223. Secretary Foster does not
contemplate any immediate further re-
duction, other than what will take place
as a result of a reduction in the number of
banks and the entire abolition of the de-
positories in some of the towns where
there are more than were deemed neces-
sary. The reduction of government hold-
ings in national banks will thus be
brought down to about \$12,000,000.

TOPEKA NOTES.

TOPEKA, Kan., Sept. 25.—Governor
Humphrey today removed John L. Jacobs,
the Democratic police commissioner of
Wichita, and appointed in his stead W. H.
Parks, a Democrat.
The governor today received the resig-
nation made to the president of R. R. Price
of Hutchinson as world's fair commis-
sioner. The resignation was accepted.
The railroad commissioners today con-
sidered the petition of the Santa Fe rail-
road extending from Lawrence to Bar-
lingham via Ottawa and ordered that the
present route be used thereon for twenty
years to be replaced with steel rails forty
feet wide.

FALG ECONOMY.

Is practiced by a poor people, who buy in-
ferior articles of food cheaper than
standard goods. Surely infants are
entitled to the best food obtainable. It
is a fact that the "Eagle" Brand
Condensed Milk is the best infant food.
Your grocer and druggist keep it.

SECRETARY BLAINE'S VIEWS.

AKRON, O., Sept. 25.—Colonel Conner,
the member of the Republican national
committee from Ohio, recently wrote to
Mr. Blaine to see if he could take part in
the Ohio campaign this fall. Colonel
Conner today received the following reply
from Mr. Blaine dated Bar Harbor, Sept. 22:
"I cannot take part in the Ohio cam-
paign for many reasons, which I need not
give, but I hope no effort will be spared to
elect Mr. McKinley. His victory at this
time is very important to the country and
party. He and Campbell represent sound
differences between the two parties at
this time. There is no feuding and no
revelation, and the voter need not be deceived.
The election of McKimley means a policy
of protection and honest money; the
election of Campbell means free trade and
the corruption of the currency."

SHOT IN THE BACK.

ARCADIA, Kan., Sept. 25.—A very mys-
terious murder occurred here today. Two
men, entire strangers, drove into town in
a buggy, took dinner at a hotel, and then
drove away. This afternoon the dead body
of one of them was found in a haystack
not far from town. He had been shot in
the back. The other man, whose name was
not known, had been seen in the vicinity of
the haystack. He was found on the body of the
dead man to identify him. From his con-
versation at the hotel, however, it is sur-
mised that he was from Cass county, Mo.,
and was traveling for some weekly news-
paper.

A FALSE REPORT.

KANSAS CITY, Sept. 25.—E. B. Ewing,
the leader of the party of Missourians op-
posed to his being elected senator, was re-
ported to have been elected senator by the
Missourians in Alaska, is a brother-in-law
of Senator Cockrell. When the senator
of his death, as reported from Port-
land, Or., he telegraphed General Lew
Wallace, who is at that place at present,
asking for further particulars. General
Wallace replied, stating that Ewing and
his party passed through there today en-
route from Alaska to San Francisco, and
that the reported killing of the members
of the party was an error.

COLLIDING FREIGHTS.

NEW MILFORD, Conn., Sept. 25.—Two
freight trains on the New England road
collided about two miles west of Haver-
ville about 7:30 last evening. Engineer
William Day, Fireman James Lacher and
Brakeman J. A. Sprague of the east-bound
train were killed. They all belonged to
Hartford. A brakeman of the west-bound
train was badly injured. The west-bound
train was running on the time of the other,
which was held up by a wreck. The wreck
was caused by the carelessness of Con-
ductor Connel and Engineer Heany, who
left Haverhill without orders.

VALUABLE PAPERS STOLEN.

TOPEKA, Kan., Sept. 25.—Three masked
robbers entered Hutton's livery stable
last night, bound and gagged the watch-
man, and then broke open the safe and
stole all of Mr. Hutton's valuable papers
and \$100 in cash. The papers stolen in-
cluded deeds, notes and other securities to
the value of \$5,000 or \$6,000. The robbers
escaped.

THE STIGMATA.

LOUISVILLE, Sept. 25.—The case of Mrs.
Stuckenburgh, who for five months past
has on Fridays, gone into a trance, and
during it shows on her body the stigmata,
or bleeding wounds of the Savior on the
cross, is now being investigated by a
committee of physicians and priests. Mrs.
Stuckenburgh was found by the committee
today in a trance and the bleeding
wounds were examined by the physicians.

WASHOUTS.

ALBUQUERQUE, N. M., Sept. 25.—Central
New Mexico has been without mail from
the east and west for several days, owing
to the washouts on the Atlantic and Pa-
cific near Laguna and Rio Puerco stations.
The water covers the track for several
hundred yards in several places. The rains
are heavy and very general. However, it
is believed that the worst has passed and
the washouts will be repaired by to-
morrow evening.

AMERICAN PROSPECTORS SLAIN.

PANAMA, Sept. 25.—Four American ex-
plorers on the river Maranon. They were
California prospectors for gold. The party
at first consisted of five, but one, owing
to illness, had to return. The others were
murdered in cold blood by the natives,
who mistook them for ecclesiasti-
cal emissaries and spies.

WHOLESALE HANGING.

CHARLESTON, S. C., Sept. 25.—The most
death-dealing sentence in the legal annals
of this state, except in cases of insurrec-
tion, was passed at Laurels today. Ten
negro men were sentenced to be hanged
on Oct. 23 for the murder of another negro.

Salmon in the Merrimack.

Fish Commissioner E. B. Hodge, of
Plymouth, says there are now more
salmon in the Merrimack river than at
any time since the Lawrence dam was
built, forty years ago, and he thinks
even further back than that. In one
day he caught twenty-two fine ones at
Plymouth. They are, however, being
mercilessly slaughtered by the dozen at
Garvin's Falls, at the mouth of the
Suncook and Soucook rivers, and at
other points.

Speaking of the agreement existing
between this state and Massachusetts,
Colonel Hodge said it was generally
thought that its provisions cost New
Hampshire considerable money, while
the fact is that the matter has been so
arranged that the general government has
footed the bills and it has not cost
this state a cent. Moreover, it was this
agreement with Massachusetts which
alone made possible the establishment
of the first fish hatchery in this state.—
